

# Archiver™ FEATURES

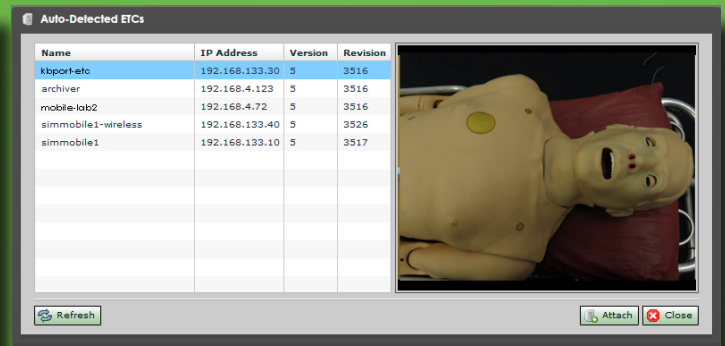

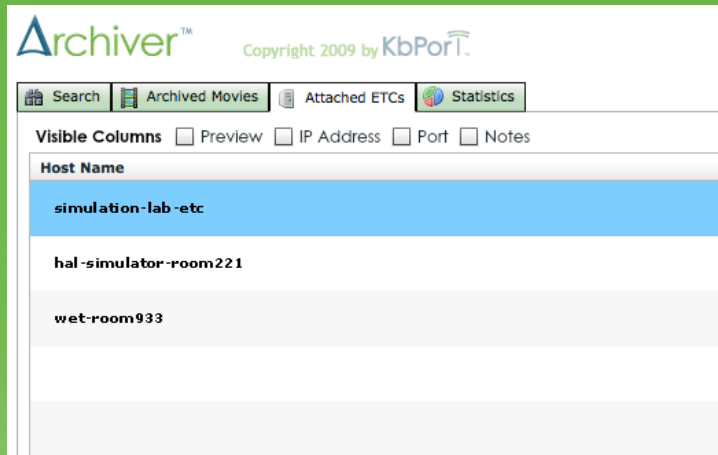

ETC ARCHIVER™ — INNOVATIVE SOLUTION FOR CATALOGING MEDICAL SIMULATION RECORDINGS

For current and future users of Kb Port's powerful ETC Technology, the Archiver represents a breakthrough for clients who store and catalog multiple ETC recordings. It's an advance in technology that, once again, distinguishes Kb Port in the medical simulation industry.

The ETC Archiver will be of particular interest to clients who use multiple ETC setups in one location. Previously, users would need to remember which recordings were stored on each machine. With the help of the Archiver, data can now be collected from all ETC's for easy storage, playback and synchronization.

MODEL	ETCs SUPPORTED	STORAGE SPACE
Mini	2	3 TB
Standard	4	6 TB
Pro	32	14 TB

# ramsês FEATURES

## Tracking

Kb Port's RAMSES, an innovative software package, allows the instructor to track: Students' progress; Maintain and manage vital resources; and Keep a schedule.

## Calendar

RAMSES calendar interface gives instructors a comprehensive overview of what, when and where. View course schedules on a day-to-day or month-to-month basis. See where the course is being held on campus—the building and room number.

## Scheduling

Worried about scheduling conflicts? With RAMSES integration, instructors can view and avoid conflicting course rooms, dates and times.

Build class schedules with all of the necessary information of the course title to budgetary information. Control your course rosters by adding and tracking students' registration fees, course withdrawals, and tuition costs.

- Courses**: Create, view, or edit course resources, schedules, participants, and instructors.
- Users**: Add, view or edit students, instructors, or faculty.
- Resources**: For managing resources used in courses.
- Reports**: All the various reports gathered together.

## Assess & Review

Insert students' contact information, programs and degrees they are enrolled in, and custom notes. Track their program progress with RAMSES Assessment and view videos directly captured from Kb Port's ETC.

## Resource Management

RAMSES automates your resource usage, and provides an overview of consumables, non-consumables, simulators and other Kb Port products located in your lab.
